DETAILED ACTION

- This action is responsive to the following communication: an Amendment filed on 4/12/06.
- Claims 1-20, 23, 26-27, 30, 34, 37-38, and 41 have been canceled.

Allowable Subject Matter

- Claims 21-22, 24-25, 28-29, 31-33, 35-36, 39-40, and 42 are allowed; renumbered as claims 1-14.

The following is an examiner's statement of reasons for allowance: The cited prior arts (US 6665082 & US 5815283) of record teach a data communication system (i.e. printer controller communicates with printer) for transmitting data therein, and wherein data is transmitted in a fixed packet format, but fail to teach and/or suggest a deciding unit adapted to decide a fixed packet length based upon information related to an upper limit packet length in which a packet is capable of being transferred by said second data communication unit, and information related to an allowable packet length in which a packet is allowable of being transferred by said first data communication unit, and wherein said fixed packet length decided by said deciding unit is the smaller of said upper limit packet length and said allowable packet length as cited in independent claims 21, 32, and 42 (renumbered as claims 1, 8, and 14 respectively). The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 21, 32, and 42 (renumbered as claims 1, 8, and 14 respectively).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
